# Fossils

by Maria Alvarez

For teachers' inspection ONLY

Plants and animals can die out. Many kinds of changes make this happen.

If plants and animals vanish from Earth, how can you know about them? You find the best clues from fossils.

# Endings -s, -es, -ed, -ing

Look at each picture. Read the words.

splasheses

votinging

# True or False?

For teachers' inspection ONLY

Work with a partner. Below are statements. Read the first one aloud. Is it true? Read it again, and say true or false. Check the upside-down answer. If you're right, you get a point. The next statement goes to your partner. When you're done, count up points. Who ended up with the most?

An apple is a fruit.  
a fruit.  
True. An apple is

Glue is good for making  
soup.  
False. Glue is not food!

All dinosaurs were cruel  
and nasty.  
False. Some ate plants  
and were gentle.

You can never make a rock grow bigger.

True. Rocks are not living.

A plane needs fuel to keep flying.

True. Planes need gas just like trucks.

The sun will not rise tomorrow.

False. The sun rises every day.

There are at least 28 days in any month.

True. A month has between 28–31 days.

When people are jogging, they are running as fast as they can.

False. They don't go too fast so they don't get tired.
