#### Minimum Requirements:

- **Android** (Android 9 or later), **iOS** (OS: iOS 11 or later, iPad Air 2 or later, iPhone 6 or later)
- **Windows** (Windows 10), **Mac** (Mac OS Catalina)

Engaging, Interactive Content

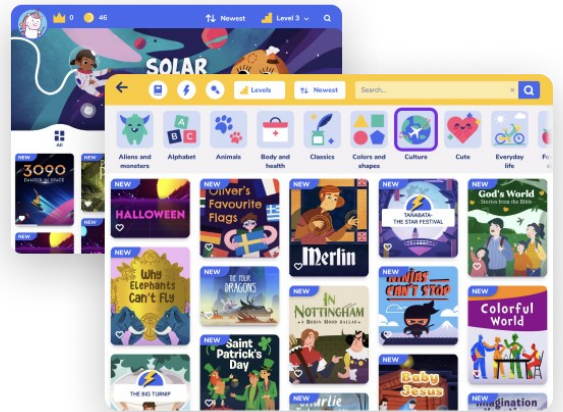

1000+ engaging animated books

BOOKR Class represents a very high quality on the market, offering a unique blend of **vivid illustrations, engaging animations, authentic narration, text highlighting, and goal-oriented games** targeting diverse language proficiencies.

BOOKR Class includes **1000+ engaging animated books** to match your course books, curriculum, in-classroom, or online activities: interactive books from the **classics of world literature, original stories, songs, civilizational materials and CLIL.**

While the animated books primarily **support English language learning and reading comprehension development**, they also **develop 21st-century skills** such as creativity, critical thinking, and problem-solving.

BOOKR Class powers up language learning with 19 game engines, offering **quizzes, jumbles, matching activities, and gap-fills to elevate reading, listening, vocabulary, grammar, and pronunciation.** Get creative with cognitive and motor skills games like memory and coloring. Flashcards enhance word acquisition and pronunciation, designed for every story and skill level.

5000+ educational games

4000+ flashcards

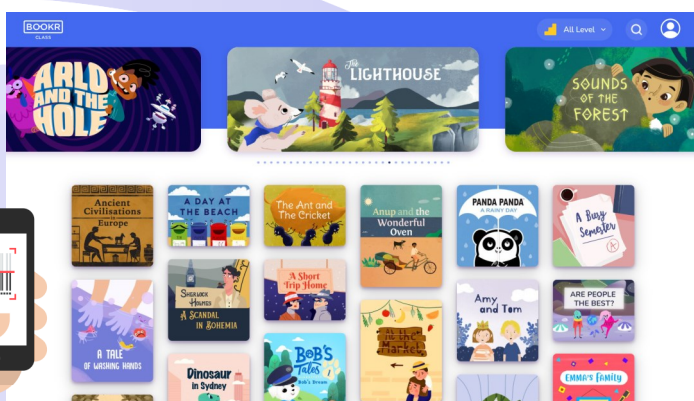

A wide range of books focusing on social-emotional learning and soft skill development.

An exciting range of Content- and Language-Integrated Learning (CLIL) books. Designed to enhance language learning, these books systematically introduce learners to a variety of subjects.

## Standards Aligned

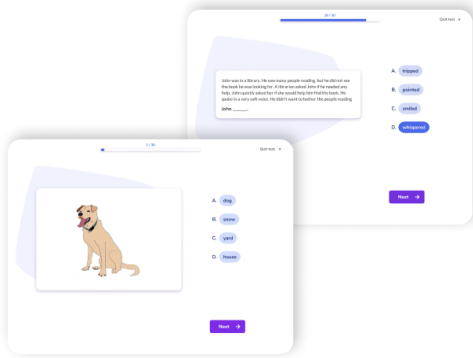

The content follows the Common European Framework of Reference for Languages (CEFR) and Lexile measures. This makes BOOKR Class a tool you can trust.

BOOKR Class includes **9 levels aligned with CEFR**. The content targets learners at K-8, aged 4-14, from **pre-A1 (beginner, approx. K-1) to B2+ (upper-intermediate, approx. G8 and up)**.

Suggested level: K → G1 | G2 → G4 | G5 → G8 | G8+

## Placement & Assessment

Upon first opening the BOOKR Class app, students can complete a **Lexile-based placement test**. The result will place the student in one of the 9 BOOKR levels if completed.

You can also find the student's exact measure in the Teacher's Dashboard. The placement test can be completed later as well.

## Complete Teacher Support

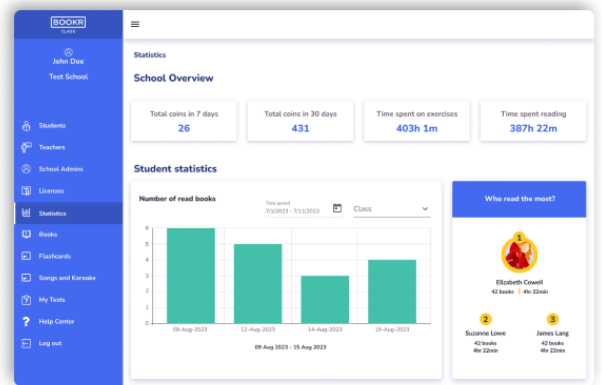

At BOOKR Class, we harness the potential of AI to tailor educational experiences to each student's unique needs, preferences, and pace.

- Monitor pronunciation skills with *AI-based speech recognition*
- *Continuous Real-Time Feedback and Assessment*
- *Personalized AI Recommendation System*

### Teacher's Dashboard offers:

- engagement metrics (Number of book read, Minutes spent reading...)
- book assignment function,
- assessment results,
- activity tips,
- printables (activity sheets, flashcards).

## Teacher's Handbook

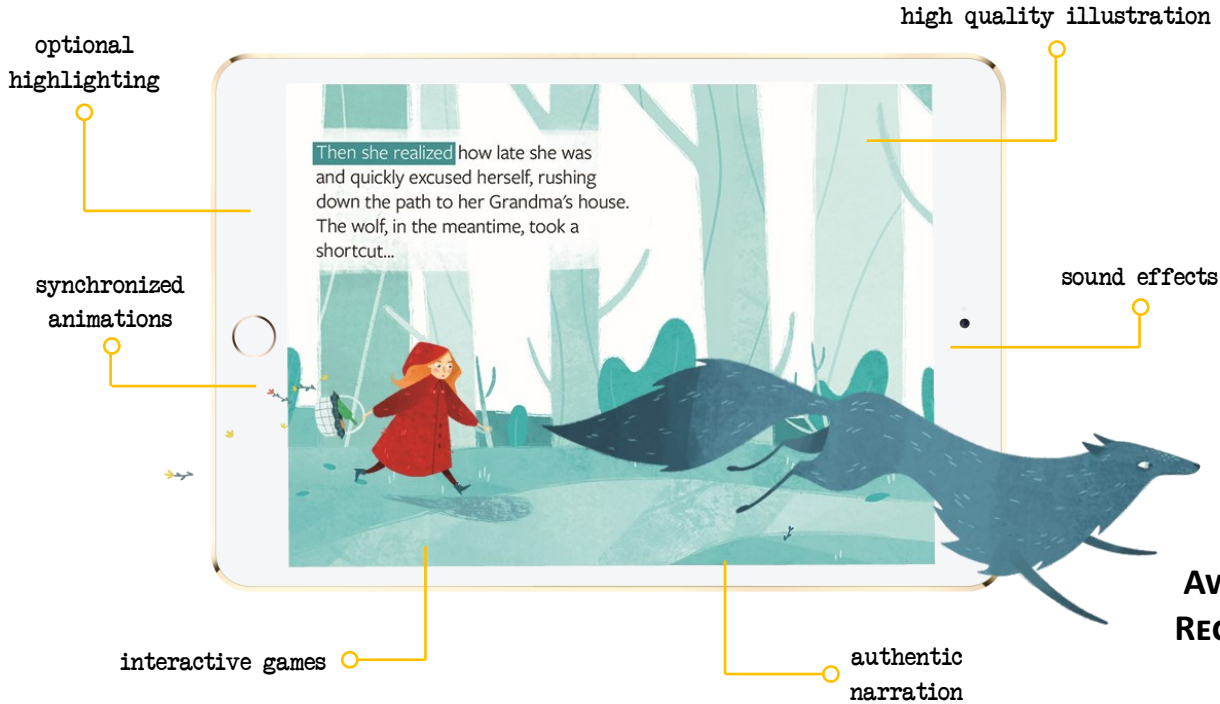

- 300+ classroom activities
- 80+ printable resources
- 150+ ideas for differentiation and tiered instruction
- cross-curricular activities
- content- and language-integrated learning designed by experienced teachers of English

## Monthly Collections at No Extra Cost

Free Monthly Collections – a ready-to-use kit engages your students with our *activity tips, printable worksheets, and recommended stories* that highlight and celebrate monthly events and traditions in a captivating way.

## Multimedia features of the interactive books

## AWARDS AND RECOGNITIONS

- ✓ **Illustration**  
A good illustration not only establishes the atmosphere of a story and depicts the topic but also makes the characters come alive, thus laying the foundations for contextual, organic learning.
- ✓ **Animation and zooming**  
The movement of some of the images in our interactive books catches the eye of the reader and develops comprehension skills without drawing too much attention away from the linguistic features of the story.
- ✓ **Text highlighting**  
Text highlighting draws the reader's attention to the words being read and helps the reader follow along at the same pace as the narrator.
- ✓ **Narration**  
Narration by professional voice-over artists facilitates the improvement of *oral language comprehension skills and pronunciation*.
- ✓ **Educational games**  
*Age-relevant and fun-to-do games* are created by teachers with a playful layout and encouraging feedback to motivate learners. Besides comprehension checks, many activities are included to practice reading for specific information and games to make sure students understand stylistically different linguistic items and structures.
- ✓ **Interactive Features**
  - Hotspots
  - Games (Gamification)
  - Dictionary
