WHAT IS AN INSECT?

Can you hear that buzzing?
It might be an **insect**.

INCREDIBLE INSECT FACT

Scientists have discovered
more than one million
different types of insects.

Insects have three main body parts. They have a **head**, **thorax**, and an **abdomen**.

Insects have six legs and two **antennae**.
Insects do not have a **backbone**.

antennae

Many people think spiders are insects, but they are not. Count the legs.

Spiders have eight legs. Spiders are **arachnids**.
