Monkey Business

Is it a spider? Is it a
monkey? It is a spider
monkey!

Spider monkeys come in different colors and sizes.

Spider monkeys have long, thin legs. They like to hang upside down. It makes them look like spiders. That is how they got their name.

But these monkeys are not spiders. In fact, they eat spiders! They also eat a lot of fruit and parts of plants.

This spider monkey chews a piece of grass.

LET'S DO MATH!

A spider monkey eats 30 seeds.
Use straws to stand for seeds.
Make bundles of 10.

1. How many bundles of ten are there?
2. How many leftover ones are there?

This spider monkey eats fruit.

Math Talk

1. How can you tell how many tens and ones are in a number?
2. How are 10 ones related to 1 ten?
3. How can you use tens and ones to compare numbers?
4. Kaya writes 38. Sid writes 83. Did they write the same number? Why or why not?
