A Day in the Life

Mr. Hawkins is a
first-grade teacher.
He lives in the city.

Mr. Hawkins rides the train to school each day. The train leaves at 7:00. He reads a book on the train.

LET'S DO MATH!

Mr. Hawkins gets to school at 7:30.
Which clock shows when Mr. Hawkins gets to school?

A.

B.

School Starts

Time for school! Students come into the **classroom**. They put their things away. Then, they read on the rug.

LET'S DO MATH!

Students read on the rug until 9 o'clock. Find all the clocks that show 9 o'clock.

A.

C.

B.

D.

Math Talk

1. Why is learning to tell time important?
2. How are a minute and an hour related?
3. What are some activities you can do in one second? One minute? One hour?
4. How are analog clocks and digital clocks alike? How are they different?
