Soaring Above the Clouds

For teachers' inspection ONLY

Imagine you can soar above the clouds with wings that are eight feet wide. You are free to roam the sky.

You are beautiful and powerful. You are an eagle.

For teachers' inspection ONLY

All About Eagles

For teachers' inspection ONLY

Each eagle is unique, but eagles have much in common, too.

When you think of an eagle, you may think of the American **bald eagle**. But that is only one kind of eagle. There are 59 kinds in all. They live all over the world.

Like all birds, an eagle's bones are hollow. This makes them light so they can fly easily.
