Making Crayons

Dona Herweck Rice

Welcome! This is where
crayons are made.

For Review Only

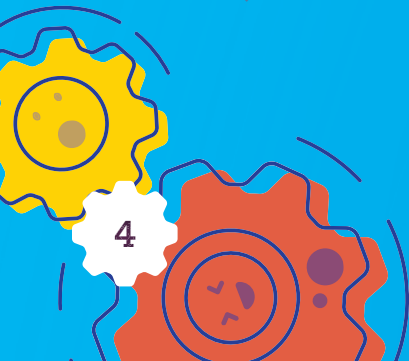

First, they melt the wax.

They add color too.

For Review Only

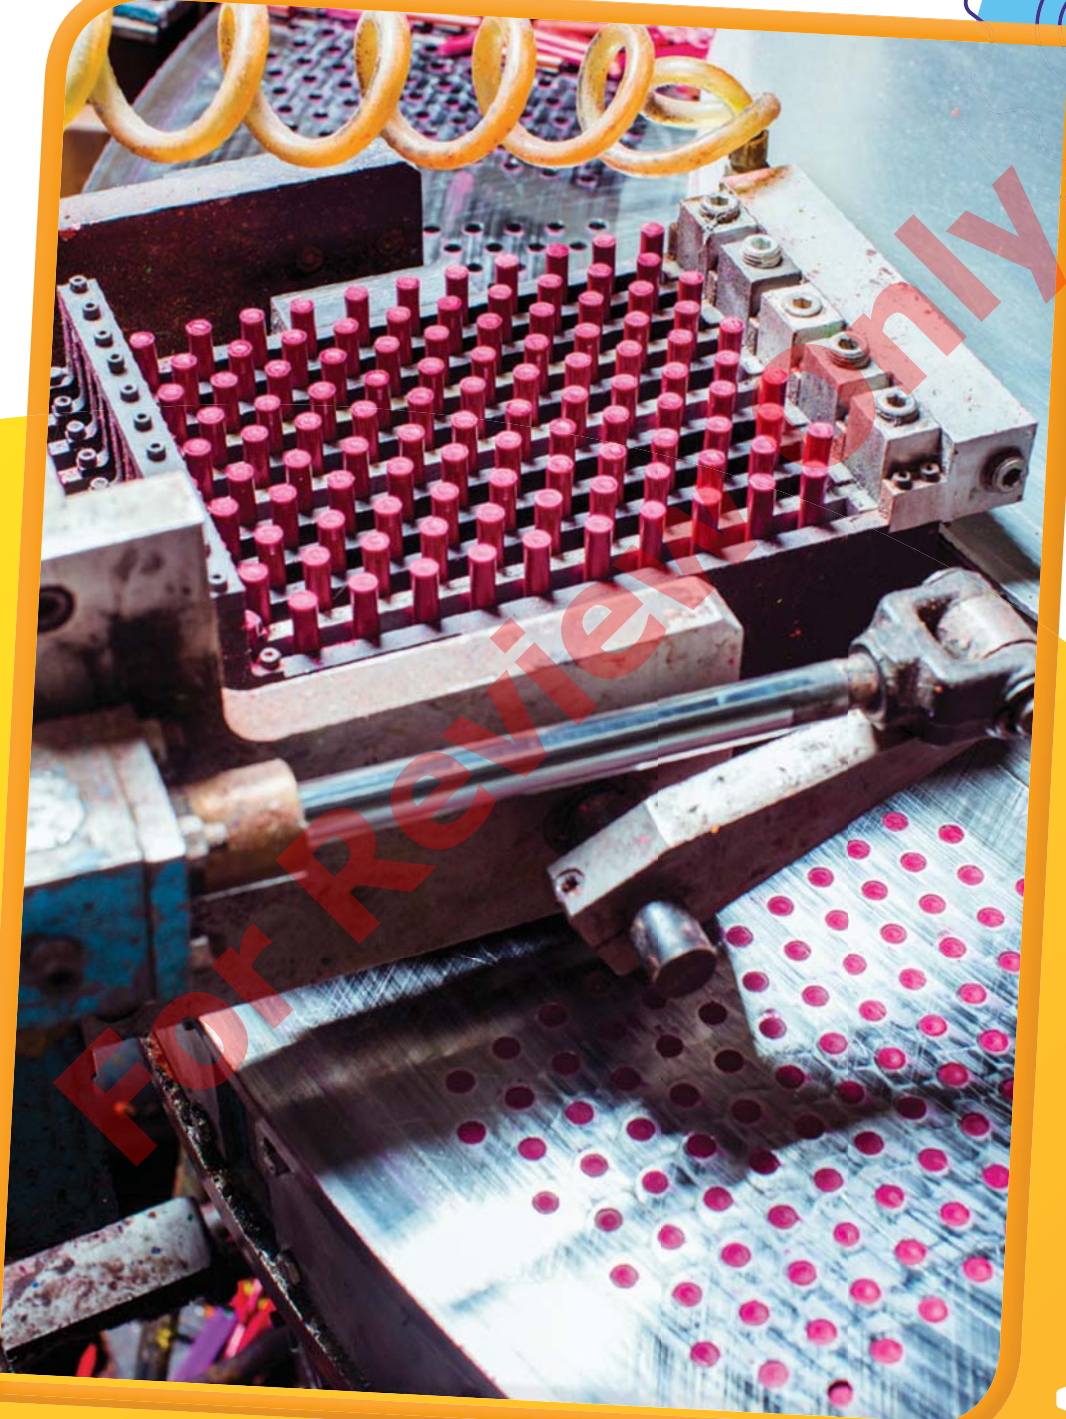

They pour the wax into
molds. It dries there.

STEAM CHALLENGE

The Problem

The class needs to color. But there is nothing to color with. Help!

The Goals

- Make a tool for coloring.
- Try to use things from nature or around the house.
- It should color on paper.

Research and Brainstorm

Learn about crayons.

Design and Build

Draw your plan. Build your new coloring tool!

Test and Improve

Color with your coloring tool.
Then, try to make it better.

Reflect and Share

What did you learn?
