Measuring with Blocks

Bella is excited to go to the playground.

But when she looks outside, it is raining!

*I'll build a fort to **play**
in instead, Bella **thinks**.
She gets **her blocks** out.*

Bella pushes blocks together.

They make a straight line.

She measures it.

The line is six blocks long.

For Review Only

6

She puts three blocks on each end.

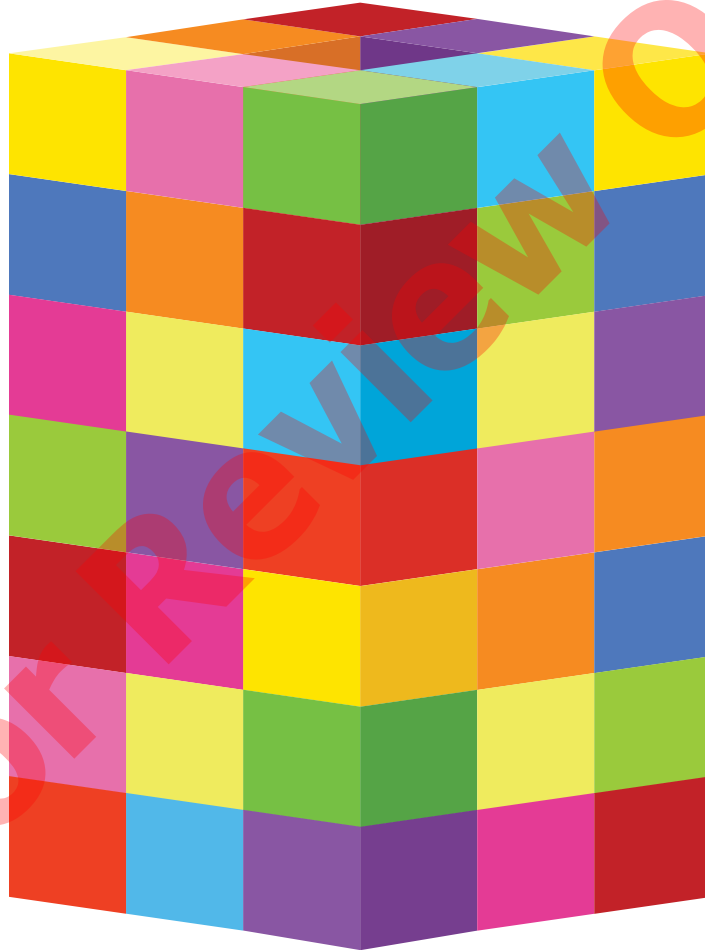

Then she fills in the missing blocks to make a rectangle.

The rectangle is four blocks wide.

Let's Review!

Bella counts blocks to measure and build a fort. Look at this tower. How many blocks is it long? How many blocks is it wide? How many blocks is it tall?

Let's Review! Answer Key: length: 7 width: 3 height: 3
