Different Shapes

Kala is excited to go to the park.
She helps her mom make sandwiches.

“Let’s cut them into triangles!” Kala says.

Her little brother, Anil, is excited, too.

They ride their bikes to the park.

“Come on, Anil,” says Kala.

“Let’s follow the rectangles.”

rectangle

“Look at the kite!” Kala shouts.

“It has squares,” says Anil.

“Yes, Anil. And the two squares together make a rectangle,” says Kala.

Let's Review!

Kala and Anil point out shapes they see in kites. What shapes do you see in the kites below? Do any of them form other shapes?
