Words in **bold** are in the glossary.

Your Turn, My Turn

You and your friend are at the library. You both reach for the same **graphic novel**. Your friend gets it first.

You remember to **take** turns. Taking turns means sharing the chance to do something. Your friend will read the book first. Then it will be your turn!

Why Take Turns?

People take turns to be fair. Taking turns shows you are thinking about others! This **skill** helps you make and keep friends.

Taking turns also helps you work with others. You let others share their ideas. Then they let you share your ideas. This is how you solve problems together!

Include Others

You can take turns by including others.
You are shooting baskets with your friends. One friend hasn't had a turn yet.
You know he might be too shy to ask.

You tell the others it's his turn next. This reminds everyone to think about others.
