WHAT'S IN YOUR CLOSET?

Your style says a lot about you. That hasn't changed throughout history. Fashion has always shown us the amazing ways people lived.

ANCIENT FASHIONS

Ancient Egypt was hot! People used fashion to stay cool. Men and women wore skirts and dresses made of **linen**. They also changed outfits up to four times a day!

Until the age of six, kids wore no clothes at all. But they still rocked jewelry, just like Mom and Dad.

ancient Egyptian jewelry

Ancient Rome

In ancient Rome, the rich wore silk robes from China. Royals even paid extra to have their clothes dyed purple. One pound of purple dye cost three pounds of gold! That's about \$91,000 today!

Purple robes showed wealth in ancient Rome.

Regular Romans weren't as flashy. Their robes came in dull colors. Most were made of wool.
