What Is a Marble Run?

A marble run is a ramp.

One end is high.

The other end is low.

Marbles roll down the run.

Why Build Marble Runs?

Marble runs are tiny roller coasters.
We use them to make marbles move.
By changing the run, we can change
the way marbles move.

Make Your Own

You can make a marble run with cardboard tubes and paper plates. Find large and small marbles and a big piece of cardboard too. What else can you use to make a marble run?
