What Is a Sunshade?

Sunshades are all around you.

Umbrellas, trees, and tents are sunshades. Hats and caps are too.

Why Build Sunshades?

The sun sends out heat and light.
Sunshades block heat and
light. Sunshades keep you cool.
They keep you from getting
a sunburn.

For Review Only

Make Your Own

Gather white and black paper, straws, plastic lids, and clay.

Find ice cubes and small plastic bags that zip too. What else can you use to make a sunshade?
