Kittens for Sale

Leah's cat has had kittens.
Leah cannot keep the kittens,
so she wants to sell them.

Leah's dad helps her to write an ad.
The word 'ad' is short for advertisement.
They put the ad in the newspaper.
They have to pay money to do this.

People who want kittens
read the ad in the newspaper.
They phone Leah's dad and make a time
to come and see the kittens.

Some of the people buy the kittens.

What Is an Ad?

An ad is a message.

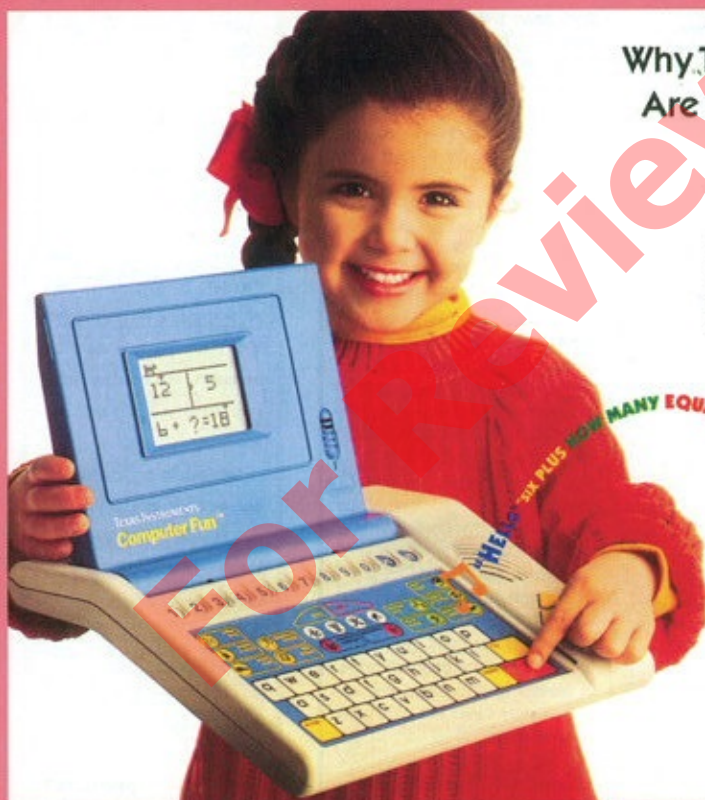

It lets people know something.

Why Toys That Speak To Your Child Are Better Than Toys That Don't.

Children simply can't help responding to toys that respond to them.

And for a 4-8 year old, Computer Fun from Texas Instruments really knows how to stimulate a young mind. It has the unique ability to recognise your child's voice and to talk back with a child's voice of its own.

With basic computer functions, it listens, it teaches and, best of all, it entertains.

HE'S GOT PLUS HOW MANY EQUALS EIGHTEEN? "NINE?" TRY AGAIN! "TWELVE" WOOF! WOOF!

People pay for ads
when they have something to sell.
